Subject: Closure Plan for the Burning Pad - Permit No. 02-04-0584

Dear Sir:

RMI Company, Sodium Plant, signed a Consent Agreement with the USEPA on August 10, 1983 to cease open burning of sodium wastes by January 6, 1985. The Sodium Plant has complied with the agreement.

Additional burning at the pad will not occur. Since waste is taken to the site at time of burning and the pad washed down afterwards, the facility is maintained in a decontaminated manner. The only closure step remaining is removal of the burning scow and burning utensils. This will be accomplished within 180 days.

The closure cost will be less than \$1,000.

If you have any questions or need additional information, please give me a call.

Sincerely,

J. T. Holman  
Supervisor-Environmental Control
